Investment Analysis

Strategy	Projected Return	Timeframe	Key Risk
Buy & Hold (Rental)	Negative -\$38K/yr	7+ year hold required	\$160K cumulative cash bleed over 5 years; only viable as cash purchase
BRRRR	Not viable	N/A	ARV ceiling too close to acquisition cost; turnkey market
Fix & Flip	~\$135K LOSS at retail entry	6+ months	Need ≤\$580K basis (65-70% of ARV) to make math work

Recommendation & Risk Factors

Investment Recommendation

Signal: **HOLD / WATCH** | **Suggested Offer:** **Owner-occupant: \$800K–\$850K.**
Investor: walk away unless ≤\$620K cash.

Mixed signals. The home, neighborhood, and macro market are strong; the deal math is brutal as a leveraged investment because of NJ property taxes (\$21,915/yr). Best fit is an owner-occupant family who values the #16-NJ school district and plans 7+ year hold, OR an all-cash buyer. Investors at retail entry will bleed \$30-45K/yr. Flippers need ≤\$580K basis for the math to work. Last sale of \$779,900 represents a ~10% discount to FMV mid (\$870K), attributable to original 1981 condition needing \$75-125K refresh.

Action Items Before Purchase

1. Pull MLS NJBL398454 directly to verify condition, lot size, garage, basement, recent updates
2. Burlington County parcel pull — verify current assessed value & post-reassessment tax bill
3. Reserve \$75-125K for 1981 mechanicals (roof, HVAC, windows, kitchen, baths likely all due)
4. FEMA flood-zone determination — Pennsauken Creek tributaries nearby
5. If owner-occupant: offer \$800-850K contingent on inspection. If investor: pass.
6. Consult NJ tax attorney on SALT cap 2030 cliff and exit-tax implications

Risk Factors

Risk Factor	Probability	Impact	Notes
NJ Property Tax	High	High	2.81% effective, escalated from 2.76% YoY. \$22K today, \$26K+ in 5yr. Reassessment risk.
Condition / CapEx	High	Medium-High	1981 build at 45-yr CapEx wall; \$75-125K refresh likely needed
SALT Cap Cliff (2030)	Medium-High	Medium-High	SALT reverts to \$10K in 2030 → 3-7% NJ home price repricing risk
Interest Rate Risk	Medium	High	Investor rates currently 7.5-8.0%, not 7%. Rate drops boost; hikes hurt
Liquidity / Exit Tax	Medium	Medium	NJ exit withholding 8.97% of gain or 2% of sale price; 38-55 day DOM. Plan 7+ yr hold.
